SOFTWARE ENGINEER

Experienced Software Developer with over 3 years of experience in designing, developing, and maintaining web applications. Proficient in front-end technologies and skilled in debugging and maintaining back-end systems. Adept at working with cross-functional teams, ensuring high-quality and performant applications.

STRENGTHS AND EXPERTISE

- **Programming Languages:** JavaScript, Java, TypeScript, PHP, Swift, Kotlin, Ruby
- **Front-End Technologies:** HTML, CSS, JavaScript, React, Vue.js, Ionic, Bootstrap, Redux, Material-UI (MUI)
- **Back-End Technologies:** Java Spring Boot
- **Databases:** MySQL, PostgreSQL, Redis
- **Version Control:** Git, GitLab, GitHub
- **Other Tools and Technologies:** Docker, Kubernetes, AWS, JIRA, Adobe, Figma, Slack, Trello, ClickUp, IntelliJ, Visual Studio Code, Confluence, Postman, Swagger, Xcode, Android Studio, Storybook

PROFESSIONAL EXPERIENCE

Bluewind Asia Corporation
Software Engineer

November 2021 - Present

- Developed responsive web applications using HTML5, CSS3, and React.js for compatibility across devices and screen sizes.
- Worked with cross-functional teams to maintain a cohesive user experience for a real estate web platform, contributing to Agile development and sprint planning.
- Resolved front-end and back-end bugs through debugging and troubleshooting, ensuring smooth functionality (IOS, Android, Web & Microservices).
- Conducted code reviews and testing procedures to maintain high-quality code standards and optimal performance across a variety of browsers and devices.
- Documented project requirements, codebase, and technical solutions for future reference, facilitating knowledge sharing and collaboration among team members.

Tools & Technologies: React.js, TypeScript, Redux, HTML, CSS, Java Spring Boot, Docker, JIRA, Kubernetes, Figma, Redis, PostgreSQL, PHP, Git, GitLab, Ruby, Swift, Kotlin

Fixel Co., Ltd.
Front-end Developer

June 2023 - September 2023

- Designed and developed intuitive and visually appealing user interfaces (UI) using React, Vue.js, and TypeScript to ensure seamless experiences across desktop and mobile platforms.
- Created reusable UI components and libraries in React and Vue.js, improving development efficiency, code maintainability, and design consistency across projects.
- Collaborated closely with designers to translate UI/UX designs into functional components, ensuring alignment with design mockups and user experience goals.
- Interacted with clients and stakeholders to gather project requirements, provide technical guidance, and ensure project deliverables met client expectations.

Tools & Technologies: React.js, TypeScript, Vue.js, Figma, Storybook, CSS/SASS, HTML, ClickUp, Slack, Git

Increment Technologies
Front-end Developer Intern

August 2020 - November 2020

- Designed mockups and wireframes using Figma, ensuring clear visualization of conceptual ideas and alignment with project goals.
- Developed and maintained frontend components and applications using Vue.js, focusing on scalability, performance optimization, and user-centric design.
- Edited and refined designs using Adobe Photoshop and Illustrator, ensuring pixel-perfect implementation and adherence to design standards.
- Collaborated closely with cross-functional teams to iterate on designs, gather feedback, and deliver intuitive user interfaces that enhance user experience.

Tools & Technologies: Vue.js, Figma, CSS/SASS, HTML, Trello, Git, Adobe Photoshop, Adobe Illustrator

EDUCATION & CERTIFICATIONS

Bachelor of Science in Information Technology

University of San Carlos
Cebu City, Cebu, Philippines
Batch 2020

Amazon Web Services Cloud Practitioner

Date of Completion: 3/28/2023
